

| Pos.    | Artikelbeschreibung           | Description of item                 | Artikel Nr./Item No. |
|---------|-------------------------------|-------------------------------------|----------------------|
| 1 + 2   | Krümelschublade               | Crumb tray                          | A010020512           |
| 3       | Eingaberost                   | Meshwork                            | A010020513           |
| 4       | Umlenkswelle z. Laufband      | Transmission shaft f.wire-mesh belt | A010020514           |
| 5       | Laufband 1,4 mm               | Wire-mesh belt 1,4 mm               | A01002052            |
| 6       | Abdeckung, unten              | Bottom cover                        | A010020523           |
| 7       | Halterung f. Heizkörper       | Bracket f. heating element          | A010020524           |
| 8       | Abdeckung innen, links        | Inner cover, left                   | A010020525           |
| 9       | Querstrebe                    | Cross beam                          | A010020526           |
| 10      | Bodenplatte, innen            | Bottom plate, internal              | A010020527           |
| 11      | Kontrolllampe grün 230V, 14A  | Green indicator light, 230V, 14A    | A039883              |
| 12      | Schalterblende                | Switch panel                        | A010020515           |
| 13      | Geschwindigkeitsregler        | Speed regulator                     | A01002054            |
| 14      | Knebel                        | Knob                                | A01002055            |
| 15      | Lüfter, DP200AP/N2123XSL      | Fan, DP200AP/N2123XSL               | A01002056            |
| 16      | Wahlschalter f. Heizkörper    | Selection switch f. heating         | A01002058            |
| 17      | Bodenplatte                   | Bottom plate                        | A010020528           |
| 18      | Abdeckblech                   | Cover plate                         | A010020529           |
| 19      | Halterung                     | Bracket                             | A010020520           |
| 20      | Motor QXYH6030M23G            | Motor QXYH6030M23G                  | A01002057            |
| 21      | Kettenrad                     | Chain wheel                         | A010020516           |
| 22      | Abdeckung, rechts             | Right cover                         | A010020530           |
| 23      | Halterung f. Heizkörper       | Bracket f. heating element          | A010020531           |
| 24      | Befestigung                   | Fixing                              | A010020532           |
| 25      | Heizkörper 600W, 230V         | Heating element 600W, 230V          | A01002059            |
| 26      | Fuß, H = 100 mm               | Base, H = 100 mm                    | A010020517           |
| 27      | Kettenrad                     | Chain wheel                         | A010020521           |
| 28      | Bolzen z. Kettenrad           | Pin f. chain wheel                  | A010020522           |
| 30 + 31 | Lager komplett                | Complete bearing                    | A010020518           |
| 32      | Abdeckung, innen-rechts       | Inner cover, right                  | A010020533           |
| 33      | Kette, außen, Abstand 6,35 mm | Link chain, distance 6,35 mm        | A010020510           |
| 35      | Blech                         | Tray                                | A010020534           |
| 36      | Rückwand                      | Back panel                          | A010020535           |
| 37      | Platte, Abdeckplatte          | Plate, cover plate                  | A010020536           |
| 38      | Feder                         | Spring                              | A010020537           |
| 39      | Auffangbehälter               | Down slideway board                 | A01002051            |
| 40      | Lüftergitter                  | Fan grid cover                      | A010020538           |
| 42      | Reflektor                     | Reflector                           | A010020539           |
